ABOUT ME

- Systems Development student with a background in programming, requirements analysis, and technical support. I am characterized by my ability to learn quickly, work effectively in a team, and adapt to new technological environments. I am seeking my first professional or pre-professional opportunity to apply my knowledge and continue growing in the IT field.

SKILLS

- Basic Programming (Python, PHP, Laravel, HTML)
- Database Management (MySQL)
- Programming Logic
- Technical Documentation
- Teamwork
- Effective Communication
- Organization and Punctuality

Adaptability

PRACTICAL EXPERIENCE

- Developed a simple product management system using Python and MySQL
- Created a basic CRUD (Create, Read, Update, Delete)
- Established and managed database connections
- Prepared technical documentation
- Provided basic technical support
- Performed computer formatting and operating system installation
- Installed and configured software applications
- Carried out initial PC setup and configuration

TECHNICAL KNOWLEDGE

- Programming languages: Python, Java, Laravel (basic)
- Databases: MySQL
- Web development: HTML, CSS, and basic knowledge of web frameworks
- Version control: Git and Github (basic workflow, branches, commits, and pull request)
- Operating Systems: Windows and Linux (basic command-line usage and file management)
- Technical Support: Basic troubleshooting, computer formatting, software installation, and initial PC configuration
- Ability to explain technical concepts in a clear and simple manner
- Strong communication skills and patience when guiding students
- Experience preparing educational materials, including presentations, exercises, and study guides
- Proficient in digital learning platforms such as Google Classroom, Moodle, and Zoom
- Ability to provide tutoring and academic support
- Leadership and classroom/group management skills
- Strong public speaking and teaching abilities

INTERESTS

- Web Development
- Databases
- Cybersecurity
- Automation
- Education and Technology Teaching
- Tutoring and Academic Support in Technology
